

Solution

Saascoin, a next-generation blockchain-based payment gateway. Genuinely tailored to the needs of SaaS businesses, powering these companies with a platform that solves most, if not all, of their current payment gateway obstacles.

Saascoin aim to disrupt the current payment processing industry by providing a trustworthy, transparent, safe, and reliable payment gateway platform, while also eliminating the pain points of payment gateway fees, chargebacks, and associated administrative headaches existing in the current relationship model with payment gateways.

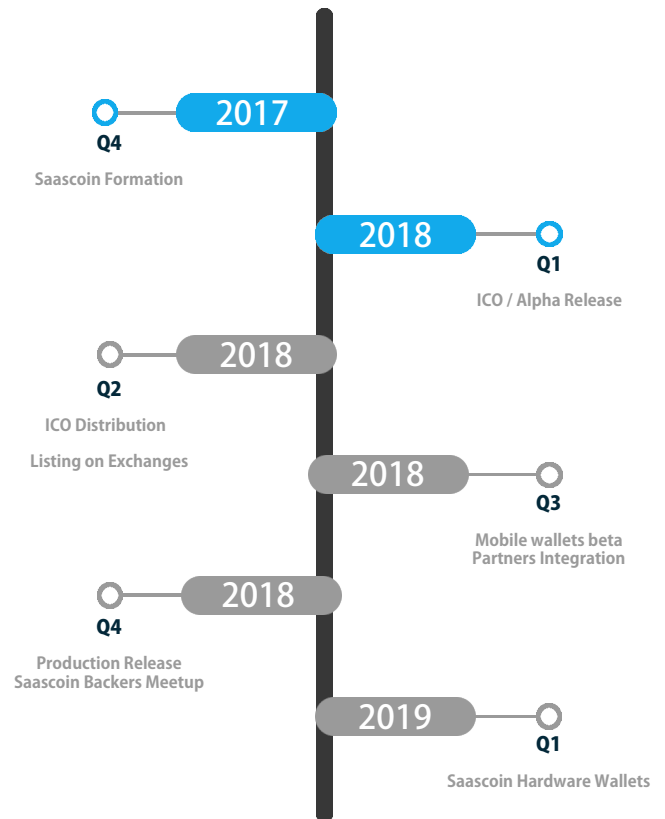

Saascoin Market Share

Based on current market data, we have predicted our earnings in the first year of operations. We have based our calculation on the assumption that we will take over 1.5% of the SaaS industry payments volume.
